DIY ACTIVITY

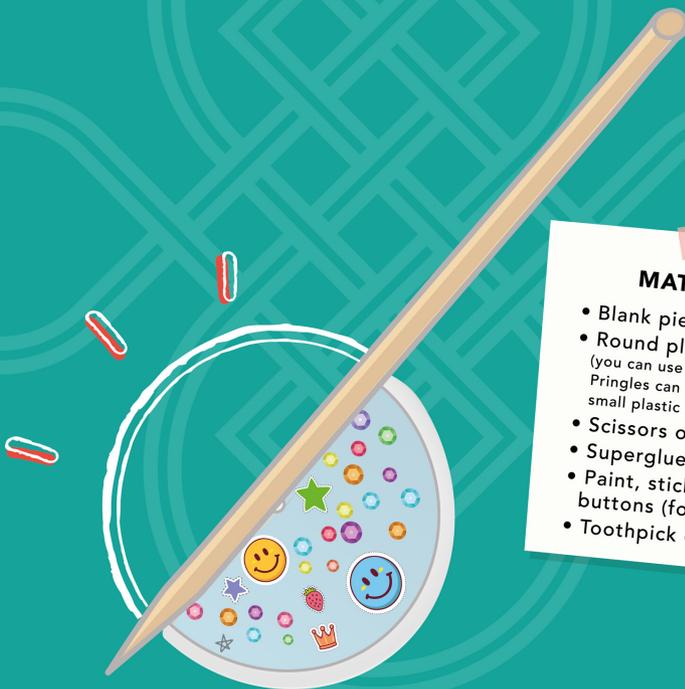

Spinning Top

#StayHomeChallenge DIY ACTIVITY

Do you want to enjoy some old school fun
by creating your own spinning top?

MATERIALS

- Blank piece of paper
 - Round plastic lid
(you can use the lid of a Pringles can or any other small plastic container)
 - Scissors or Penknife
 - Superglue
 - Paint, stickers, sequins, buttons (for decoration)
 - Toothpick or satay stick
- 

1

Place the round lid on the piece of paper and trace its outline using a pencil or pen.

2

Using a pair of scissors or a penknife, cut along the outline so you end up with a round piece of paper that is the same size as the lid.

3

Decorate it using paint, stickers, sequins or buttons of your choice and glue the paper onto the lid.

4

Once dry, mark the centre of the lid using the pencil or pen, and create a small hole through the centre of the paper and lid using toothpick or satay stick.

5

Fit your toothpick or satay stick through the hole in the plastic lid and glue it so it stays secure. Leave to dry.
